### Paragraph Instruction

**\*Read the paragraph carefully and answer the following questions.**

We can make water clean and safe to drink in simple ways. One way is by boiling the water. It kills germs. It makes it safe to drink. This is the most common and easiest method. Another way is to use water filters. These special filters catch the bad stuff in the water. We can also use water purification tablets. They can get rid of the germs in the water. These germs can also be killed by keeping water bottles in the sun. We need to keep clean water safe. We should store water in clean containers.

**Question No. 6 : What is the most common method of cleaning water?** www.Schoolbasedassessment.pk

- (a) Sunlight (b) Boiling (c) Filtering (d) Tablets

**Question No.7 : Identify the purpose of purification tablets.**
